Named for the founder of Braille Institute, J. Robert Atkinson, Atkinson Hyperlegible is a traditional grotesque sans-serif at its core.

It departs from tradition to incorporate unambiguous, distinctive elements—and at times, unexpected forms—always with the goal of increasing character recognition, and ultimately improving reading.

Braille Institute of America is a nonprofit organization that embraces the unique challenges of sight loss and low vision, and rejects perceived limitations.

Atkinson Hyperlegible is available to download from **brailleinstitute.org** and is free for personal and professional use. Atkinson Hyperlegible is also available for use on the web from Google Fonts.
